

Open letter to the FCC:

You have got to be kidding? What could possibly be wrong with XM Radio providing these services? This type of censorship should not be allowed. I derive great benefit from these XM radio services. In addition, XM Radio provides more variety and quality than anything I can get on conventional radio. Since I pay for these services, why is it up to the NAB to dictate what I can and can not listen to? Appalling!

I respectfully urge the FCC to reject NAM's Petition 04-160.

Thomas R. Oates

P.S. What would have happened if the same approach had been taken with cable television many years ago??? Think about it...
